# President XL280 De Luxe

The perfect choice for today's most extreme campers

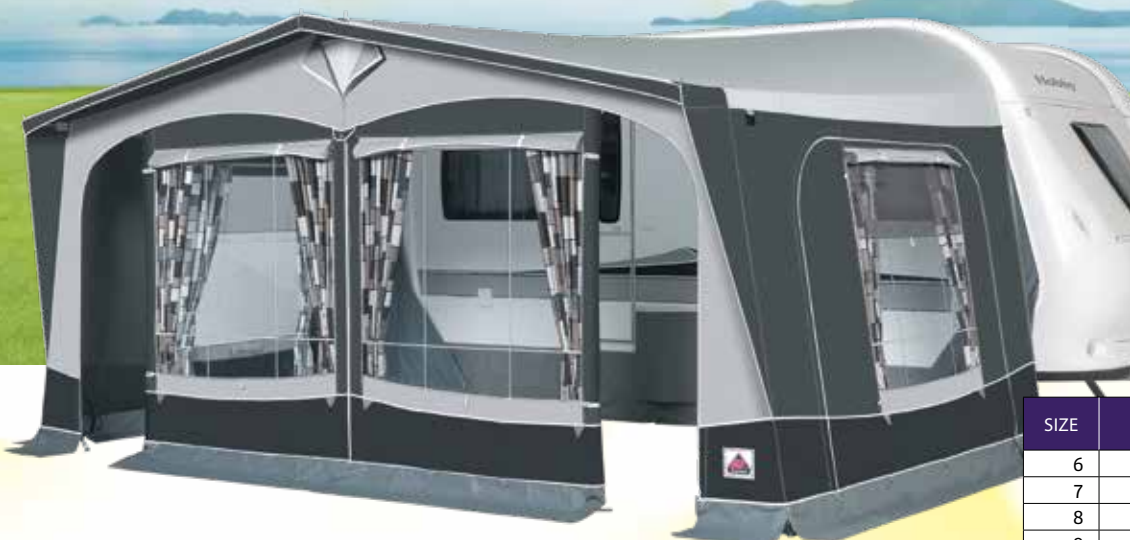

Whether you require a top quality touring awning or a perfect seasonally sited awning, the President XL280 De Luxe is actually both. The Ten Cate All Season Design canvas is equipped with an extra coating to help reduce adhesion of dirt to the canvas which can enhance the longevity of the awning. The President XL280 De Luxe is equipped as standard with window blinds for extra privacy as well as double anchor hook fittings to allow the mud flap to be placed either inside or outside.

# Emerald 270

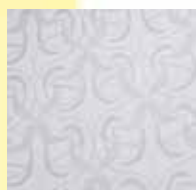

NEW

## Emerald 270, cut to perfection!

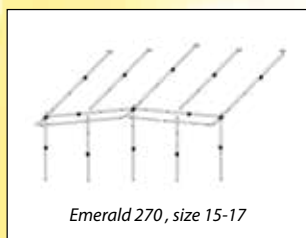

The new Emerald 270 from Doréma is the perfect mix of top design and maximum functionality. By making use of the new latest trends in colours and its sharp lines, a whole new look is created. Equipped with detachable mud wall to create an easy to clean and pack awning. The depth of 270cm, extra high windows and large ventilation windows in each side panel, allows you to experience optimal camping comfort. This makes the Emerald 270 not only suitable for seasonally siting but also a great for the touring camper. The optional annex is given the extra luxury and comfort by its ample size (250cm x 150cm), including a rear doorway and window with extra fly screen ventilation, which can be rolled down. Enjoy this stylish awning and experience an unforgettable holiday.

# Royal 350 De Luxe

## Total luxury for seasonal site use

**Standard with window blinds, double mud flaps and double Safe Lock System.** All Royal 350 De Luxe awnings are now fitted with window blinds for extra security and complete privacy. This very desirable feature is the very latest must have feature for seasonally sited awnings. To increase the stability of the awning, extra safe lock clips are fitted enabling the fitting of a total of four Safe Lock storm straps. Notice the fitting of a double mud flap, yet another great idea fitted as a standard feature on this superb new model.

# Daytona Air

This traditional shape and style allows the space and comfort of a full awning along with the ease of erection using the very latest Dorema EAF air system. The main Air frame which consists of 3 roof, 3 leg, 3 angles and apex tubes all inflate together from one valve with additional roof and leg supports erected separately on sizes 8 – 19. This allows the frame to be erected in minutes. This touring awning is made from the very latest Ten Cate European materials which allows the awning to be used in all seasons of the year. This awning is the ideal choice for short breaks and family holidays making this the perfect choice for the touring camper.

# Magnum Air Force KlimaTex

## The next generation of inflatable awnings

The 'Magnum Air Force KlimaTex' range is the very latest designed multifunctional Air Awning by StarCamp which allows each camper to use in multiple combinations to suit their individual need and is perfect for those short breaks. You can start with the 260cm base model on its own for an overnight stay or there is also the option to zip in 270cm metre Additional Extension (AddEx) left and right which can then extend the 260 base model to 530cm left or right or 800cm if left and right AddEx are both fitted. The same AddEx's can also be fitted to the 390 Base which increases size to 660cm left or right or even an eye watering 930cm if both AddEx's are fitted allowing the camper additional space for those unexpected visitors. The versatility of this new Air awning is that it gives the ideal solution to the camper who requires a different awning for different uses at different times, making it the perfect choice.

## Magnum Air Force All Season

Due to the success of the StarCamp lightweight version Dorema have now produced the Magnum Airforce in the latest TenCate DormaTex materials. This new specification allows the awning to be used throughout the Seasons and can be seasonally sited if required. The Easy Air Frame system (EAF) and one-valve inflation point allows the awning to be erected with consummate ease. This new model is produced in Europe in our own modern facilities using the latest materials and technology available. The Additional Extensions (Add Ex's) make this the most versatile awning on the market. A base model of 260cm with 1 AddEx (Left or Right) will give you 530cm of space or 800cm if both are added. The same AddEx's can also be fitted to the 390 Base which increases size to 660cm left or right or even an eye watering 930cm if both AddEx's are fitted allowing the camper additional space for those unexpected visitors.

# Starlon® Awning Carpet

FROM  
**£62**

NOW ALSO  
AVAILABLE  
IN 350 CM

Grey

Blue

Dorema has developed this user friendly carpet to ensure the optimal compatibility with your new awning. Starlon is produced in two attractive colours: Grey and Blue.

This quality carpet is suitable for weekend campers as well as the more enthusiastic permanent site camper.

By adding a new environmental friendly ingredient to our exclusive designed weave structure, we have been able to make Starlon light in weight and incredibly strong.

Yet, the texture is soft and comfortable especially when the little ones are running around in their bare feet.

Accidental stains such as coffee or red wine are easily removed by using a damp cloth. Any stale smells from underneath the carpet are prevented due to the special breathable weave construction of Starlon carpets.

Starlon is available in most sizes to suit your awning.

Compact to fold

Easy to clean

# ALU Quick System frame

## Fibre Tech Plus frame

- Ultra light
- New Easy clamp system
- Long life
- Very stable
- Easy to erect

Extra strong roof support poles ensure the frame is even more stable.

HIGH TECH  
CONSTRUCTION

Not recommended for Seasonal sited Awnings

Complete frame

## FIBRE TECH PLUS frame

The very latest in fibreglass frame technology, FIBRE TECH PLUS is a top quality woven fibreglass tube that is incredibly strong, easy to handle and simple to erect. The unique construction of the FIBRE TECH PLUS frame ensures maximum strength at all times.

## ALU QUICK SYSTEM Frame

ULTRA  
LIGHT

LIGHTWEIGHT  
(about half the weight  
of steel)

NO RUST (long life span)

28 MM ALUMINIUM  
TUBING \*  
(the corner angles are made  
from steel)

The ultra light aluminium EASYGRIP QUICK SYSTEM frame consists of only three major sections and three roof support poles. Each section contains a number of poles which are telescopic or are connected together with a spring system.

Not recommended for  
Seasonal sited Awnings

The very latest in advanced frame technology is now a standard feature on most new 2020 Dorema awnings that are supplied with steel or aluminium frames. With the new Dorema EasyGrip frame system erecting your awning is a simple and effortless process. Simply adjust the poles, press the clamp and hey presto your frame is tensioned with childlike simplicity, no effort or stress just a perfectly erected frame.

## EASYGRIP FRAMES

### EASYGRIP SPEED LOCK CLAMPS

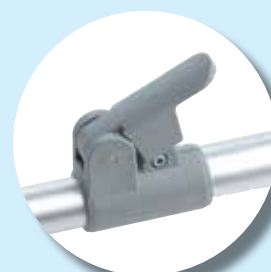

EasyGrip speed lock clamps are now fitted as a standard on steel and aluminium frames for the following awnings:\*

- |                      |                        |                     |                      |               |

# QUALITY IS IN THE DETAILS

### Ventilation

On most Dorema awnings there is a central net ventilation panel that can be closed with a zipped panel.

### Awning Canopy

All new Dorema full awnings will be equipped with piping as standard to allow a Palma awning canopy to be fitted.

### Double zip system

Create extra space with this smart new idea from Dorema. Our unique annex double zip system enables you to replace the side panel once the annex is fitted, this then enables you to create a handy extra storage area. This feature is only available on the new President XL280, Garda 240, Garda 240 De Luxe, Garda XL270, Octavia, President 250/XL300, Grande Octavia, Emerald 270 and Omega De Luxe.

### Curtain Fixings

The high quality curtains slide on a sewn in plastic track.

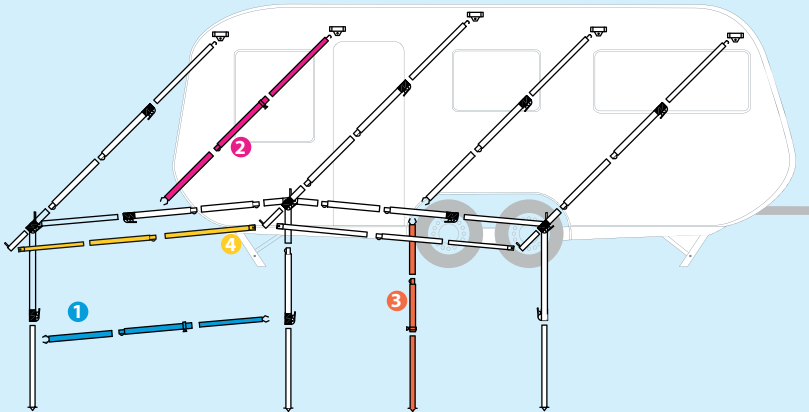

### Covered Zips

Most Dorema awnings have covered zips in matching material for extra protection.

### Multifunctional Draught Skirt

All Dorema awnings and sun canopies are equipped with our multifunctional draught skirt. Our special solution is also suitable for all aerodynamic caravan shapes.

20	1125 - 1150
21	1150 - 1175
22	1175 - 1200

## HOW TO FIND OUT WHICH SIZE YOU NEED

Measure your caravan as shown in the picture. The measurement from ground to ground A-B-C can then be checked with the chart to give you your awning size. If you are not sure please contact your Dorema dealer for further advice.

### Seasonal Caravanners please note:

Dorema strongly recommend that anyone seasonally siting their awnings should measure the caravan on the seasonal pitch prior to ordering their awning, as this can change the size required.

All measurements are in cm.

**2 YEAR  
WARRANTY**  
on all Dorema  
products\*
